AI. CENTRAL OFFICE

DESCRIPTION OF THE PRINCIPAL PUBLICATIONS

This section presents an outline of the contents and nature of the principal Central Office publications. The general publications (Official Year Book, Pocket Compendium, etc.) are described first (pages 3-4); then follow the annual bulletins on subject areas such as demography, finance, production, overseas trade, together with certain of the more important mimeographed bulletins whose content is not treated so comprehensively elsewhere (pages 4-11); next are the 1966 and 1971 Censuses of Population and Housing publications; and finally miscellaneous publications concerning the censuses of retail establishments, wholesale establishments and motor vehicles, which are conducted less frequently than annually. Reference numbers following the title of each publication relate to the complete list of *all* current and recent Central Office publications shown in Section AII (pages 19-33). The prices of publications are indicated in Section AII.

AI. DESCRIPTION OF THE PRINCIPAL PUBLICATIONS ISSUED BY THE CENTRAL OFFICE OF THE AUSTRALIAN BUREAU OF STATISTICS

GENERAL PUBLICATIONS

OFFICIAL YEAR BOOK OF AUSTRALIA (1.1)

The principal general reference work of the Bureau's Central Office. Provides a comprehensive and fairly detailed statistical review of all aspects of the economy and social conditions of Australia for which official statistics are available. Statistical material, illustrated by graphs and maps, is presented in chapters dealing specifically with: population; vital statistics; housing and building; labour, wages and prices; overseas transactions; transport, communication and travel; welfare services; public health; law, order and public safety; national accounts; private finance; public finance; education, cultural activities and research; employment and unemployment; manufacturing industry; rural industry; water conservation and irrigation; forestry; fisheries; mineral industry; electric power and generation; the Territories of Australia. Contains also descriptive matter dealing with Australia's history, geography, physiology, climate and meteorology, government, defence services, repatriation and international relations. Among items included in the current issue (No. 59, 1973) are the complete text of the Constitution of the Commonwealth, a diary of principal economic events for the year 1973-1974, a chronological table of chief events, 1955 to 1974, and a statistical summary of selected items and years over the period 1901 to 1974. New or revised material in this issue includes: the list of Australian Government Departments and the principal matters dealt with at March 1973; results of a survey of ex-service personnel, widows and children; final results from the 1971 Census of Population and Housing; a new Wholesale Price Index of Metallic materials used in the manufacture of fabricated Metal Products; an article on the development of telecommunications in Australia; the Appendix contains information on the restructuring of certain Australian Government Departments made on 30 November 1973 and the second Whitlam Ministry at the same date; a brief summary of the 1973-74 Budget and the results of referendums on prices control and incomes control held in September 1973.

POCKET COMPENDIUM OF AUSTRALIAN STATISTICS (1.2)

A *pocket* year book, emulating the Year Book in comprehensiveness without the detail. Concentrates on 'basic' statistics, its aim being to provide something in all statistical fields, so that the inquirer can obtain an idea of the order of magnitude or relative importance of a subject. Contains the names of current holders of vice-regal positions, members of the Australian Parliament, the Australian Government Ministry; a chronological table of events of historical importance from 1770; and lists of Bureau publications and public holidays.

QUARTERLY SUMMARY OF AUSTRALIAN STATISTICS (1.3)

A comprehensive quarterly publication intended primarily for the issue of annual and other cumulative series, it contains a wide range of economic and social statistics, differing in respect of the latter from the *Monthly Review of Business Statistics*, which is restricted mainly to economic indicators. It is the earliest general publication in which a number of series appear, and is therefore a handy reference for the latest statistics available in a wide variety of fields.

MONTHLY REVIEW OF BUSINESS STATISTICS (1.4)

Contains a comprehensive range of monthly and quarterly economic series, including seasonally adjusted series, covering employment, internal and overseas trade, prices and wages, building and production, transport and communication, national accounts, balance of payments, and finance, showing figures for up to ten years and twenty-six months.

DIGEST OF CURRENT ECONOMIC STATISTICS (1.5)

Contains eighty-nine selected monthly or quarterly economic indicators, most of which are shown in original and seasonally adjusted form. Provides an up-to-date review of the most recent statistics available, and generally appears during the last week of each month with figures up to the previous month.

SEASONALLY ADJUSTED INDICATORS (1.10)

Contains original and seasonally adjusted data in tabular and graphical form for selected series of statistical indicators of Australian economic activity. The seasonal adjustment of these series is intended to serve as an aid in statistical interpretation and analysis. Later figures in the series, and other series being seasonally adjusted, are published in the *Monthly Review of Business Statistics*, the *Digest of Current Economic Statistics*, and in other monthly and quarterly publications of the Bureau. The purposes of the publication are to provide a comprehensive long-term series of both original and seasonally adjusted data and to give a detailed description of the methods of adjustment used. The bulletin is issued annually, following annual re-analyses of the series.

NORTHERN TERRITORY STATISTICAL SUMMARY (1.6)

Annual publication in which are assembled all available official statistics for the Northern Territory. Contains also a chronological table of events, a list of representatives and officials and a list of ordinances and regulations promulgated during latest year.

AUSTRALIAN CAPITAL TERRITORY STATISTICAL SUMMARY (1.7)

AIII. CENTRAL OFFICE

**SUBJECT INDEX
TO PUBLICATIONS**

AIII. SUBJECT INDEX TO PUBLICATIONS OF THE CENTRAL OFFICE OF THE AUSTRALIAN BUREAU OF STATISTICS

This index is designed to assist users in determining which Central Office publications are relevant to various subjects. *The index is not intended as a comprehensive index of commodities or items covered in the statistics. For example, particular items of production and overseas trade are largely omitted.*

Because of the comprehensive range of statistics contained in the *Official Year Book of Australia* and in the *Pocket Compendium of Australian Statistics*, no references are given to them in this index, since they would have to be included for virtually every item. Each of these publications contains a detailed index, and the former should be regarded as the principal general statistical reference work produced by the Central Office of this Bureau. No references are given to the Northern Territory and the Australian Capital Territory Statistical Summaries, which contain a comprehensive range of statistics for those Territories, or to the folder *Australia at a Glance*, which gives a concise statistical summary for Australia.

Where more than one reference to a subject is given, the chief reference, wherever it has been possible to determine it, is indicated by bold type. Two or more references to a subject so indicated signify major, and approximately equal, importance. A number in brackets following 12.16 refers to the particular issue of the Production Summary dealing with the subject indexed.
